BrightArrow® Technologies, Inc.

BrightArrow provides the most powerful, feature-rich and integrated mass notification system on the market.

➡ **Unlimited Voice Calls, Texts, Emails, Push Notifications and Social Media Posts**

➡ **BrightChat Two-Way Teacher/Parent App**

➡ **Full Spectrum of Emergency and Safety Alert Features**

➡ **Unprecedented Student Database Integration, with Flexible and Easy Message Creation using Web or App**

➡ **24/7/365 Support**

Reliable, Efficient and Easy Message Delivery, all with the click of a button.

You have choices for your messaging and notification platform. As the fastest growing platform, BrightArrow now delivers more functionality than all of the other systems combined. Its products and features are broader than other notification solutions and the support and customization is unmatched.

BrightArrow makes it easy and error-free to create and send messages to your constituents. Using both the web interface, or the BrightArrow app, you can productively relay a message via voice calls, text messages or emails all from within one page.

BrightArrow is your #1 solution for sending information in a timely and efficient manner.

BrightArrow® Technologies, Inc.

Delivering powerful and cost-effective solutions since 2001, by maximizing an organization's ability and flexibility to mass communicate.

BrightChat NEW!

BrightChat delivers a secure, automatically configured, two-way instant messaging environment between teachers and parents/students. It allows them to type, record audio, attach documents, and even share photos and videos easily in a familiar chat page.

Unlimited Options

Automatically deliver unlimited emails, text mesages, voice calls, push notifications and social media posts. Simultaneously send to large groups of people using BrightArrow's products and features, seamlessly and in a single action.

Safety

Full spectrum of emergency and safety alert features. Valuable weather, emergency, attendance and informational notifications, as well as the Panic Button and an Anonymous Tip Line specifically designed for critical situations that need to be communicated.

Database Integration

BrightArrow allows automatic database synchronization, eliminating manual importing of contacts. Contact data can integrate with over 100 different types of databases.

Reports

The ability to retrieve, export and send reports to your constituents. Automatically deliver secure documents specific to each individual's content, such as report cards or attendance reports.

Mighty Admin

Unparalleled 24/7/365 responsive customer support provided efficiently and in a friendly manner. BrightArrow offers one-on-one assistance with onboarding, training, troubleshooting and product knowledge.

Versatility

BrightArrow's products and features can do everything they're designed to do and then some, across several different industries. Our versatile, cost-effective tools even provide fundraising capabilities, so you can make an impact by reaching the masses.

Creation & Delivery

Easy-to-use interface allows you to create, schedule or immediately deliver messages all from a single page. Choose from several options and message creation tools, such as importing pictures or HTML settings. It's never been easier to share a wealth of information!
